

Harrison's is open with normal business hours! Harrison's takes great pride in public safety as well as keeping our employees safe during this COVID-19 pandemic. We are offering pick up and drop off services to our customers within a ten-mile radius. We are asking our customers to put their keys in the vehicle so our technicians can pick the vehicle up. Our technicians will have masks, gloves, and all the necessary cleaning supplies when picking the vehicle up. Upon completion we will do paperwork over the phone, disinfect your vehicle and drop your vehicle back off with a receipt and keys in the vehicle.

We also ask our customers to please call and schedule appointments, drop off vehicle, and leave a detailed message with the job they would like to have performed while leaving the keys in the vehicle. Harrison's will wipe down the vehicle before performing any work to ensure no spread of the COVID19 virus along with wiping vehicle down upon completion. Harrison's will call customers when job is completed and do paperwork over the phone, leaving the keys and paperwork for our customers to pick up at their earliest convenience or we can arrange to drop off car. Please do not schedule or drop off any vehicle if you are experiencing any symptoms of the COVID19 virus.

This has been a very difficult time for our country and we as a company would like to do our part in controlling this horrible virus. Please try and follow procedures that our company has put in place along with our Government. Please call us if you have any questions or concerns during this time. 410-822-3899
